Summary

- **Frontend Developer** with about **3 years** of experience in building responsive, user-friendly web applications.
- Proficient in **JavaScript**, **HTML**, **CSS**, **Angular**, **React**, and **AngularJS**, with hands-on experience in modern and legacy projects.
- Worked with libraries like **Redux**, **Easy Peasy**, **PrimeNG**, **Tailwind CSS**, **Chart.js**, **Recharts.js**, **React Quill**, **Firebase**, **Sass**, and **Ant Design**.
- Experienced in client interactions, understanding requirements, and delivering **high-quality work** on time.
- Completed a DSA course with training in code optimization at AccioJob in a competitive environment, solving numerous LeetCode problems, showcasing strong logic-building skills.

Experience

Application Engineer at Hexaview Technologies Pvt. Ltd.   *Jun' 2022- Present*

Frontend Development | Web Application Engineering

- Developed an online exam platform with dynamic UIs for coding, math (**KaTeX**), and text-based questions (**Markdown**), integrating real-time notifications (**WebSockets**, **Firebase**) and an interactive dashboard (**Recharts**, **Framer Motion**).
- Implemented secure authentication with **Crypto.js**, **refresh tokens**, and **Ant Design** UI, ensuring smooth API interactions with **Axios** and **Jest** testing for reliability.
- Optimized performance using **lazy loading**, **memoization**, **SSR**, and built **RESTful** APIs, leveraging Vite and Babel for efficient development.
- Worked in Agile/Scrum, collaborating with Figma designers to refine UI/UX and ensure scalability.

Enterprise Application Development | Performance Optimization

- Worked on finance and membership-based applications using **Angular 17** and **AngularJS**, focusing on task and client management.
- Utilized **PrimeNG**, **Angular Material**, and **Tailwind CSS** for UI, with **RxJS** for efficient asynchronous data handling.
- Implemented **Chart.js** for data visualization and optimized legacy AngularJS projects without extra libraries.
- Handled API communication using observables, along with debugging, feature integration, and ensuring timely project delivery.
